About India Health Link

India Health Link, founded in 2013, is transforming healthcare in India with the hPod, a clinically validated digital health kiosk developed from 10+ years of US-led research.

The hPod, made in India and CDSCO-certified, enables early detection of health issues and is integrated with ABHA and eSanjeevani for accessible and affordable primary care.

Through partnerships with corporations, communities, and hospitals, the company promotes preventive over curative care.

Additionally, India Health Link offers the hCare app, a wellness platform for digital health reports, telemedicine, and consultations.

Our Offerings

hPod

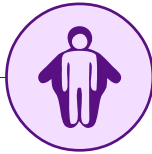

- Offers rapid screening of 44+ health parameters for early detection of chronic diseases like diabetes and hypertension.
- Provides essential on-the-spot health assessments to rural residents with limited healthcare access.
- Enables timely interventions, improving overall health outcomes across the region.
- Facilitates direct teleconsultations with labs & pharmacies, enabling quick diagnostic advice and medication access.
- Provides services in multiple Indian languages for better communication.

Non-Invasive

Vitals

- Height
- Weight
- BMI
- Systolic BP
- Diastolic BP
- ECG (6-Lead)
- SpO₂
- Temperature
- Pulse
- Heart Rate

Body Composition Analysis

- Extra Cellular Water
- Intra Cellular Water
- Body Fat Mass
- Percent Body Fat
- Visceral Fat
- Waist Hip Ratio
- Waist Height Ratio
- Protein (Muscle Mass)

- Consultations

Key Features and Specifications

Innovative Technology

As India's first ABDM compliant and UHI integrated health kiosk, hPod represents the pinnacle of innovation in the healthcare industry.

Comprehensive Health Screening

Screens 44+ health parameters, both invasive and non-invasive, providing a thorough understanding of your health status.

Regional Language Support

hPod supports local languages such as Hindi, Marathi, Gujarati, and over 12 additional languages. To enhance convenience and usability, more regional languages are continually being integrated.

Instant Digital Health Reports

Empowers you to receive immediate digital health reports, empowering you with real-time insights into your well-being.

Real-time Report Sharing

Facilitate effective communication with healthcare providers by sharing test reports in real-time for accurate and timely medical advice.

Certifications

hPod is clinically validated by doctors and hospitals, holds a CDSCO license, and meets IEC 60601-1-2, ISO 13485, CE, HIPAA, ITA 2008 standards, and SW is VAPT certified, ensuring top-notch quality, security, and reliability.

Optimizing Rural Healthcare

Helps address the imbalance of Patient-to-Doctor ratios in rural areas by providing accessible and efficient healthcare solutions, ensuring patients receive timely care even in resource-limited settings.

Empowering Rural Healthcare

A powerful tool for delivering primary healthcare services in rural communities, ensuring essential medical care reaches even the most remote locations, improving health outcomes and accessibility.

Urban Wellness Walk-In Solutions

Serves as wellness walk-ins in urban areas, providing easily accessible health check-ups, preventive care, and wellness consultations.

Health screening in matter of minutes 44+ parameters Test

Mental wellbeing solutions

Easy online consultations with specialist for effective immediate consulting

Group health insurance

Lab test at home-at discounted price

Engagement activities & gamification

Online pharmacy - wide range of pharmacy products at a discounted price

2024 India Health Link Pvt. Ltd.

Integrates ABHA Modules

We are committed to advancing healthcare through technology. *India Health Link has seamlessly integrated ABHA modules—M1, M2, and M3—into systems*, ensuring flawless data exchange and interoperability.

ABHA Integration :

M1 Integration: Streamlines the creation and management of ABHA IDs, standardising patient identification.

M2 Integration: Connects patient records across healthcare systems, guaranteeing continuity of care.

M3 Integration: Secures the transfer of patient data, boosting interoperability and reducing administrative burdens.

Benefits :

Enhanced Patient Identification: Aligns with national health standards.

Streamlined Reporting: Ensures consistent and standardised reports.

Compliance and Efficiency: Supports national health policies and enhances operations.

This integration elevates reporting capabilities, ensuring superior patient care and better alignment with national health initiatives (Ayushman Bharat Digital Mission).

How India Health Link hPod Can Support Government Initiatives

- Enhance the reach of NHM by providing diagnostic services in remote and underserved areas.
- Support NHM’s goal of universal access to equitable, affordable, and quality healthcare.

- Complement Ayushman Bharat's Health and Wellness Centres by offering diagnostic and preventive health services.
- Help achieve comprehensive primary healthcare coverage.
- Seamlessly integrate with ABHA for efficient health record management.

- Integrate with the Digital India framework by providing e-health services and telemedicine consultations.
- Promote digital health literacy and encourage the use of technology in healthcare.

PUBLIC HEALTH SURVEILLANCE

- Collect anonymised health data to support public health surveillance and policy-making.
- Provide real-time data analytics to identify health trends and outbreaks.

COMMUNITY HEALTH PROGRAMMES

- Partner with local governments to implement community health programmes and awareness campaigns.
- Facilitate regular health camps and screenings in collaboration with public health departments.

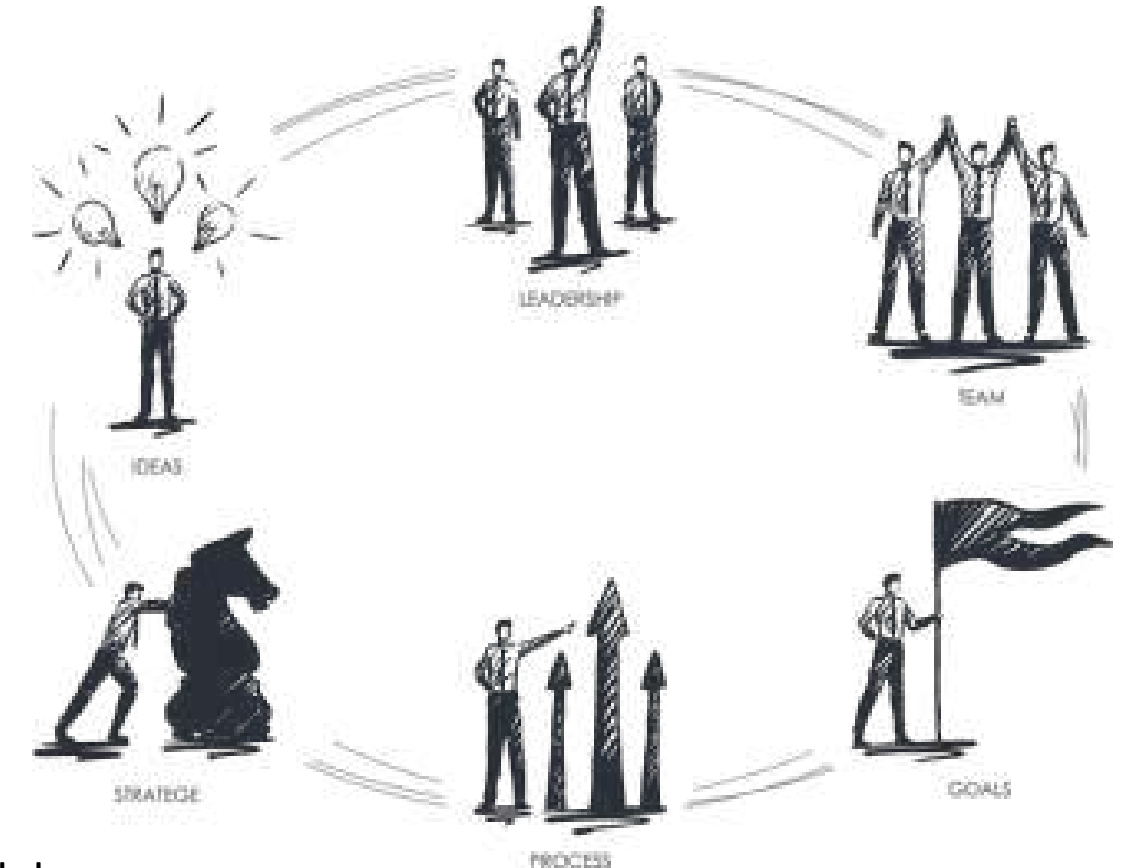

Benefits of India Health Link's Platform

- **Comprehensive Health Assessment:** hPod provides 44 + Parameters vitals of health screening, including blood pressure, weight, BMI, pulse rate, ECG, and body composition analysis. This comprehensive assessment allows individuals to track their health status over time.
- **Early Detection with preventive screening:** Routine health checkups can encourage preventive care, which can prevent more serious health issues later on.
- **Real-Time Health Data Sharing:** hPod shares real-time health data with doctors and nutritionists, enabling immediate access to expert consultation and recommendations.
- **Time-saving:** hPod offers efficient healthcare services, minimizing waiting times and reducing the burden on overcrowded clinics and hospitals.
- **Seamless Integration:** hPod seamlessly integrates with the hCare App, allowing users to track health data, identify trends, and make lifestyle changes through a consolidated health overview.
- **HIPAA Compliance:** hPod's HIPAA compliance ensures secure storage and transmission of health data, protecting sensitive information from unauthorized access or breaches.
- **Cost-effective:** hPod is cost-effective, making healthcare more affordable.

What We Achieved

- World's 1st '**Made in India**' hPod assesses 44+ non-invasive & invasive health parameters including **SIX-LED ECG** without any support from paramedic staff.
- **Ayushman Bharat Digital Mission** (ABDM) compliant for **Ayushman Bharat Health Account** (ABHA ID).
- Clinically **validated** in India.
- Tele-consultation with qualified doctors with **e-Sanjeevani integration**.
- **Highly scalable** – each center requires approximately 72 hours to set up.
- **Multi-lingual** compatibility with (12+) Indian languages.
- Easy Payment Methods like UPI, Debit/Credit Cards, etc.
- **Biometric access** with lifetime free health accounts (hCare) to manage and track health data.
- **HIPAA and ITA 2000** certificates for personal data privacy.
- Inbuilt 2 hours of power backup in case of power failure.
- **10+ years of R&D** – Platform adopted from an American company (10000+ deployments).
- The training module can be configured as virtual public health training for health workers.

Various Deployment of hPod

**Kolors, WeWork, Persistent, Dr.Mehta Hospitals, BLVD Club
Bangalore, Caratlane, Nerolac, Maharajganj Hospital, Sri Ganga Ram Hospital, JKTyre etc.**

जिला महाराजगंज
DISTRICT MAHARAJGANJ

**Sir Ganga Ram
Hospital**

Our Testimonial

What our clients say about us?

“

I'm beyond excited because our campaign was a smashing hit! Your partnership was the key to this achievement. Moving on to applauding the stars of the show, the hPod truly stole the spotlight. Everyone, from attendees to our internal team, was eager to experience it firsthand.

Srijita Majumdar
Ayu Health

”

“

The experience with hPod was enlightening. Regularly using hPod for health assessments can offer insights into our body's metrics, enabling us to make lifestyle adjustments. It's a commendable initiative.

Ajay K. Agarwal
Finance Head, Relaxo Footwears Limited
